Training is given and talks organised to acquaint the “business angels” with the principles of investment in an unlisted company in its start-up phase. Here are a few examples:

- Investing in a start-up, the keys to success
- Good practices in co-investment
- The shareholders’ pact
- Tax aspects of cross-border investment

WHAT ARE THE FIRST RESULTS?

The cross-border venture capital forum has taken place twice and has produced two lots of “graduates”. The third forum takes place in 2015 and the Pitching Days took place at the end of 2014 (25 November 2014 in Luxembourg, 28 November 2014 in Nancy and 5 December 2014 in Louvain-la-Neuve, in Belgium), with a new feature: candidates have presented their projects three times in three regions and therefore to three panels of investors.
