	Group work: key challenges identified and possible solutions³	
14.50	When developing new or revised national and regional spatial plans – what are the key steps that need to be undertaken in the design phase and what are the key challenges that need to be addressed in the early stages of the development of plan? (This could involve - who develops the plan, stakeholders involved, public participation processes, external consultations and contacts, data requirements, scale and detail, deciding what aspects of territorial development are covered and prioritised, timelines, etc.). What insights do the ESPON projects bring to these processes and methodologies?	
16.00	Group presentations and feedback	
16.15	Conclusions and recommendations	Frédéric Santamaria , Deputy Director, RIATE
16.30	Close
